

Centrifugal Juice Machine Indulge

Rs. 41000(GST Extra)

This is the most common type of juicer to make juices easily. It's the most affordable. Once you feed in the vegetables or fruit, it shreds and spins very fast so that the pulp and bits of fruit and vegetables are caught by a strainer or filter and the juice spins out. Whether you're making a single flavor drink such as apple juice, or you're juicing blueberries, oranges, and carrots together for an antioxidant-rich beverage, these centrifugal juicers are a valuable appliance for your juice bar, cafe, or restaurant. We also carry models that feature a pulp ejection system that automatically separates pulp from juice, allowing for continued, uninterrupted use.

Technical Specifications :

| | |
|---------------------|-------------------------|
| Capacity | : 100 Kg/hr |
| Dimension | : 340 x270 x 360 mm |
| Power Source | : Electric |
| Power Supply | : 220/50 V |
| Power | : 370 w |
| Speed | : 2800 r/min |
| Weight | : 12 Kg |
| Standard basket | : 0,5 mm diameter holes |
| Height of the spout | : 200 mm |
| Feeding hole | : 79 mm diameter |

Features :

Removal centrifugal basket made of micro perforated stainless steel sheet

Continuous juice production by centrifugal action and automatic pulp ejection.

Patented locking-unlocking system with special lever.

All removable parts can be put in a dishwasher or easily cleaned with hot soapy water

Motor braking when opening

Patented locking-unlocking system with special lever
